Project Name	Heritage Treasures: An In-Depth Analysis of UNESCO World Heritage Sites in Tableau
Maximum Marks	4 Marks

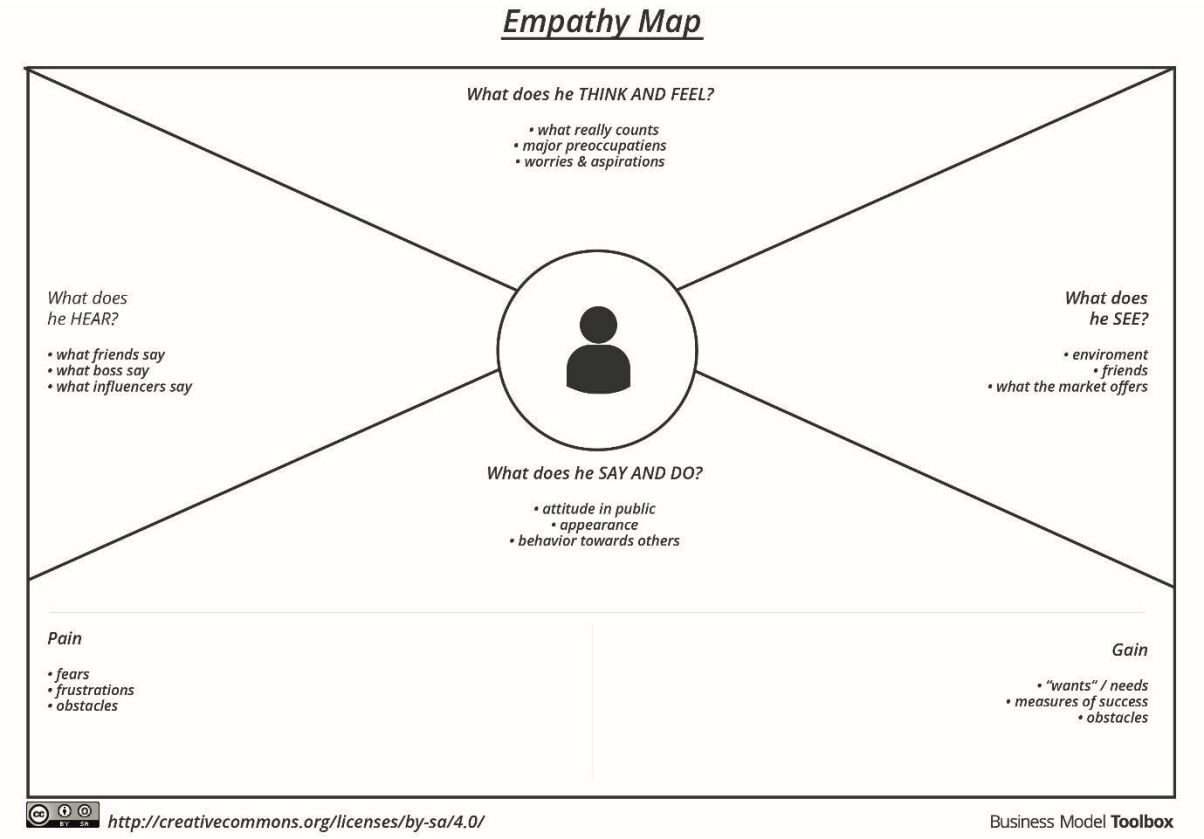

Empathy Map Canvas:

An empathy map is a simple, easy-to-digest visual that captures knowledge about a user's behaviours and attitudes.

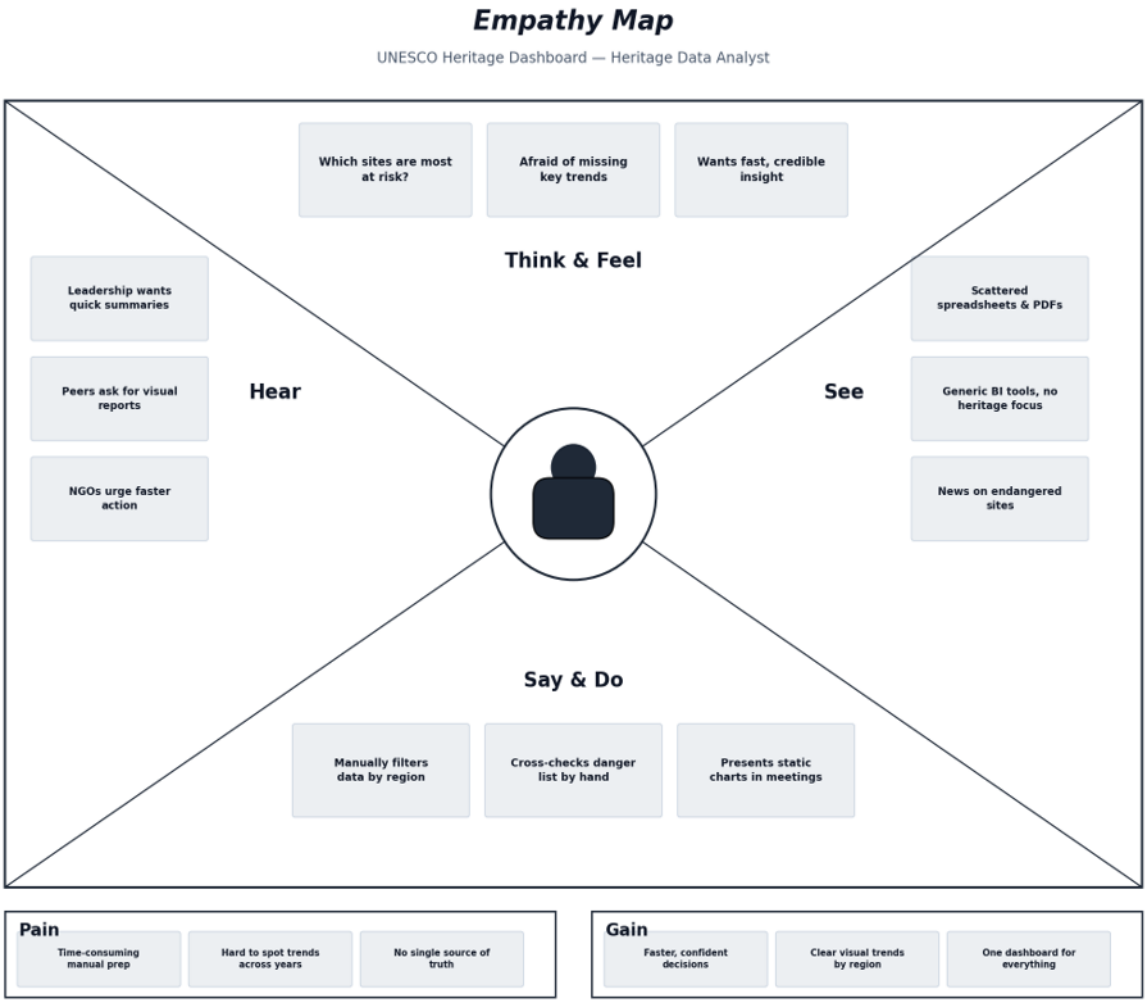

It is a useful tool to help teams better understand their users.

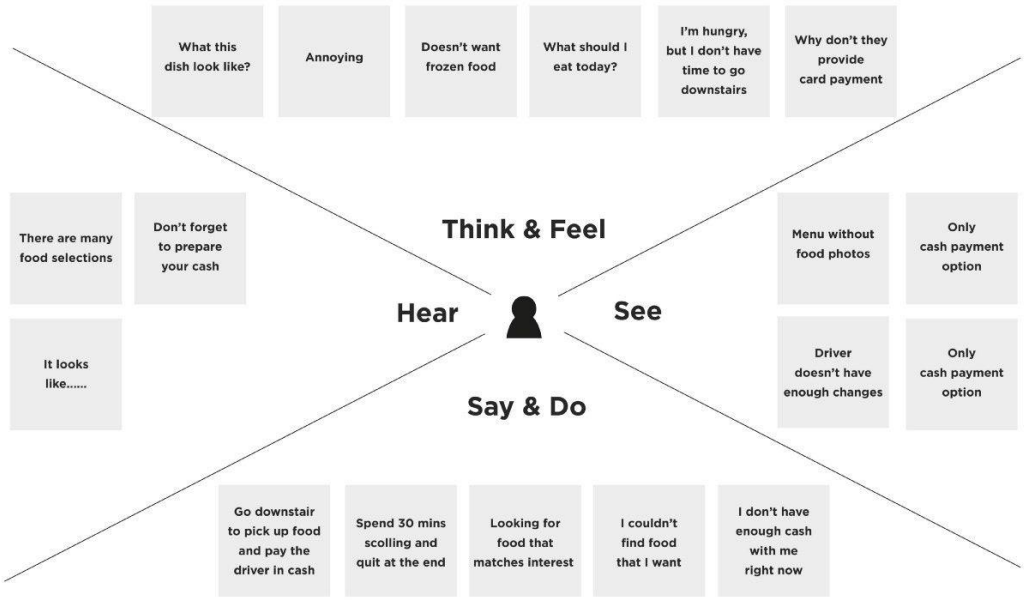

For this project, the team used the canvas to step into the shoes of the primary dashboard user - a heritage data analyst - considering their goals and challenges before designing the UNESCO World Heritage Sites dashboard.

Example:

Example: UNESCO World Heritage Sites

Pain

- Hard to find their food interests
- Uncomfortable paying cash
- Looking for food that matches interest

Gain

- Comfortable
- Accuracy
